

## Language Fluency Policy

(Approved January 8, 2020, and amended November 3, 2021,  
and January 11, 2023, January 17, 2024 and March 5, 2026)

### 1 Introduction

Communication is critical for safe, competent, and professional practice as an early childhood educator (ECE). A number of risks arise, such as risks to children’s safety, quality practice, and governability as a member of the *College*,<sup>1</sup> when ECEs cannot communicate in English or French with reasonable fluency.

Because of these risks and the importance of communication, the College has a *language fluency requirement* for registration as a way to hold applicants accountable for demonstrating proficiency in English or French before they are granted a certificate of registration that authorizes them to practise in Ontario.

#### 1.1 Purpose

*This policy* establishes the standard for the *language fluency requirement* and options by which applicants can meet it.

#### 1.2 Application

*This policy* applies to all applicants for registration with the *College*.

#### 1.3 Relevant legislation

Language fluency is established as a registration requirement by s. 5(2)4 of the *Registration Regulation*.

### **3 Options for meeting the requirement**

There are three ways that applicants can meet the *language fluency requirement* for registration. In summary the options are:

- Completion of post-secondary education in English or French.
- Completion of post-secondary education involving a specialization in Indigenous studies in Canada
- Achievement of at least the minimum scores, determined by the *College*, on a language test recognized by the *College* for the purposes of the *language fluency requirement*.

Each of these options are further described in the following subsections.

#### **3.1 Post-secondary education in English or French**

An applicant can meet the *language fluency requirement* if they successfully completed a diploma or degree program from a post-secondary institution where the language of instruction of the program was entirely in English or French.

Where an applicant completed a diploma or degree program from a post-secondary institution in Canada, the official transcript is reviewed.

Where an applicant completed a diploma or degree program from a post-secondary institution in another country, the applicant must submit the prescribed credential assessment report from a credential assessment agency identified in [the Individual Assessment of Educational Qualifications Policy](#). The report must indicate that the program was completed entirely in English or French.

#### **3.2 Post-secondary education involving a specialization in Indigenous studies in Canada**

Where an applicant completed a diploma or degree program from a post-secondary institution in Canada that involved a specialization or specific stream of Indigenous studies taught in a language indigenous to Canada, the applicant can meet the *language fluency requirement* if all other aspects of the program were completed in English or French.

Where an applicant completed a program described in this subsection, the official transcript is reviewed.

### **3.3 Language tests**

An applicant can meet the *language fluency requirement* if they achieve at least the minimum scores required in each of speaking, listening, reading, and writing on a language test approved by the College. The English language test scores can be found in Schedule A, and the French language test scores can be found in Schedule B.

For the test option the applicant must:

- Achieve the minimum scores in each area in a single sitting. Combined scores from multiple sittings of the same test, or from different tests, are not accepted.
- Arrange to have the results sent directly by the testing centre to the *College*.
- Ensure that test scores are not more than two years old from the date an application is submitted.

Applicants are responsible for finding an appropriate test centre and paying any fees for taking the test.

### **3.4 Discretion by the Registrar**

The *Registrar* has the discretion to vary from the options and associated criteria in *this policy* when determining whether an applicant satisfies the *language fluency requirement*.
